

Says

What have we heard them say?
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

Does

What behavior have we observed?
What can we imagine them doing?

Feels

What are their fears, frustrations, and anxieties?
What other feelings might influence their behavior?

PREPARATION AND
MAINTENANCE OF ZOHO
BOOKS FOR BRIGHT IDEAS
CONSULTING

Integrate predictive analytics to help businesses anticipate cash flow fluctuations and make informed decisions.

Implement advanced customer segmentation for targeted marketing campaigns based on buying behavior and preferences.

Improve the Zoho Books mobile app with features like receipt scanning, expense tracking, and invoice creation on the go.

implement AI-powered categorization for expenses to save time on manual entry and sorting.

Create automated reminders for invoice due dates, helping users stay on top of their receivables.

Develop a central integration hub that connects Zoho Books with other popular business tools, streamlining workflows.

Provide real-time insights into currency exchange rates and their impact on financials for businesses dealing with multiple currencies.

Utilize OCR technology to automatically extract relevant data from receipts and invoices, reducing manual data entry.

Enable multiple users to collaborate on the same accounting data simultaneously, enhancing teamwork and efficiency.

Develop industry-specific templates that cater to the unique needs of different businesses, making setup and customization easier.

Remember, while considering these ideas, it's important to align them with user needs and keep user experience at the forefront

Zoho Books is a popular accounting software designed for small businesses. It offers various features to manage financial tasks such as invoicing, expense tracking, and financial reporting
